Congress is taking matters easy and makes slow progress. Nichtagus is calipsed again, and Kansas is in the ascendent. It sooms settled that the administration intend to force through the Lecompton Swindle, if they can.

A portion of the Indiana Democracy have called a mass convention, on the 22d instant, to on lorse Samethe Outhan, and enter their protost against the Lecompton villainy. The debate in the Sounte, on the previous action of the Indiana democracy, no doubt prompted this done onstration.

Our Legislature, by the decisive vote of 91 to 2, have backed up Governor Randall's recomen. dation for a scrutiny into the alleged corrupt Land Grant legislation of 1856.

A shocking tragedy occurred near Whitewater, in this State, on Monday night. A party of rowdies undertaking to charinaria newly-married couple, the angry bridegroom fired at the intraders, killing one of them instantly and wounding another.

Hasbrouck, setting forth that the new Harbor, at the Straight Out, was completed according to contract, and ready for use, and praying the Council to adjust the claims of the contractors, and pay the balance due thom. This Herbor is a work of which our city has every reason to be proud. To be sure, i has been expensive, costing some \$250,000 but even at that figure, it is a cheap investment. The commerce of Milwaukee is increasing stend-Hy and rapidly. Each succeeding year adds to the number of vessels which sook our ports, and to the aggregate of our Exports and Imports. It is, therefore, of the first consequence to the commurcial standing and prosperity of our city, that the facilities for ingress and egress should be ample. A good flarbor is indispensable to the succoss of this line. We have already expressed our opinion of the thorough and fulthful manuer in which the contractors, Mesars. Hasbrouck & Conro, have done their work : and this opinion is confirmed by that of Col. Graham, U. S. A., Superintendent of Harbor Improvements on our Western Lakee. It is due, therefore, to the contractors, that the Harbor Committee should promptly report upon this claim, and that the Council should seatle it. It is not of such improvements that tax-papers complain, for here the resulting benefits are tangible and mani-

The Harbor, it will be remembered, has been constructed upon the Government plan, and approved and accepted by the Government officers and this city ought to be, and we trust, will be reimburged in full, by the General Government, for the outlay unde. The City Engineer, toc. has watched the work closely, and cortified to the faithful execution of the contract. Under those circumstances, it is but fair and just that the Harbor Committee should examine and audit, and the Council allow and pay, the claims of the contractors.

What the South Expects.

Senator Buows, of Mississippi, one of the fights and leaders of the "National Democracy," writes a letter to the N. Y. Horald upon the Kansas question, which closes thus:

I have not a shadow of doubt that Kansas will he admitted under the Lecompton Constitution, and this without the slightest regard to any vote which may have been cast on the 4th instant, If you and the Tribune had assumed that I do clined speaking because I thought the question already settled in our favor, you would have been

nearer the mark.

Very respectfully, your ob't servant,

A. G. Brown.
It is quite obvious that the "National Democ racy" of the South, are intent upon forcing a Stave Constitution on Kansas. We shall soon know how many Northern Doughlaces they date got to help them in this nefacious plot.

The News versus the Tax-Payers. The News, the official organ of our honest, economical and altogether incomparable City our "growing City." Administration, takes in high dudgeon the recun movement among the Tax-payers of Milwankee, to reform the abuses, redress the grievances and put a stop to the waste, corruption and mismanagement, which have, for several years past, characterized our City Affairs. To this end, the News assails the Tax Payers meetings, misrepresents their proceedings, impugns the motives of those who have taken active part in them, traduces the officers and Committees, and attacks and de. nounces, in advance of its publication, the report of the Investigating Committee. Several private timely provision for declining health and old citizons, who, at great personal Inconvenience, but under the urgent solicitations of the great body of tax-payers, have, for some weeks pust, devoted themselves to this work of Investigation? are specially singled out for defamatory assault; and every trick and device are resorted to, in the vais hope of prejudicing the public against the doings and recommendations of the Committee, and of raising a political clamor, under cover of which our present rulers may succeed in se-curing another lease of power. The Report of the Investigating Committee, now nearly ready for the press, will, we incline to think, vindicate its authors against any and all attacks of our City officials, or their liveried organ, the News, while the incontestible facts which it discloses will abundantly justilly the steps taken by our Tax-Payers to rid thomselves of the Vampires who have been sucking their very life-blood.-Meanwhile we shall reserve all comments upon this Report, until our readers and the public have had an opportunity to read and judge for them-

The News of yesterday, in the course of fr esh and violent paroxysm on this subject, raises the ghost of the defunct "Jenny Lind Club," and charges upon that dead and buried association all manner of political misdemeanors, :It was this Club, according to the veracious News which started all our Rail Roads; issued all the City Bond; rescued the negro Glover; originated the "treason" of making Kansas a Free State; bought up the Governor and Legislature, in 1856, for the moderate sum of \$800,000, and thus secured the control of the Land Grants; colebrated this victory by a "blow out" at Bernea's, at the public_exponse; le solely responsible for the city indebtedness; deleated the elec tion of Caoss for Governor, last fall, and is the prime mover, luctigator, aider and abetter of the Tax-l'ayore' movement. Our readers may gathor from the above enumeration some faint idea of the members, the influence and the activity of this "Jonny Lind Club," which though dond and gone years since, is still capable of accomplishing such manifold and magnificent results. If it his a true bill, the Ness may as well "come down" at once, for it would be idle to thinkief contouding against such invisible, yet irresisti-

Will Me do it? The News professes to be in doubt whether Gov. Randall is in carnest in his recommendations, that the charges of bribery in the disposition of the Land Grants, of mal-Administration in the Bank Comptroller's and Trensurer's offices, and of various other alleged, or suspected malpractices la different departments of the State Administration, be thoroughly investigated and laws passed to prevent their recurrence. "If he is honcet in the desire" to ferret out wrong and punish cylideers, the News magnanimously assures the Governor of "the sympathy and support of the outles democracy ;" but if-and the latter is evidently the hypothesis of the News-"if this proclamation is morely to hunt anow some onemy, pay off some old grudge, or stab some rival, he will wither like the barren fig tree, and his vindictive message will become his political winding shoot."

None can read the Governor's message without a strong conviction that he is thoroughly to carnest; and those only will spy "vindictiveness" in it, who are themselves conscious of such a feeling towards the Executive, or whose "welllaid schomes" are likely to be interfered with by his scarching recommendations. The doubts of the News, whether real, or affected, will, we venture to say, be speedily solved; and it will awake, ore long, to a realizing sense of the Governor's settled and resolute purpose to bring back the Administration of our State affairs to the Republican standard of Honesty, Economy and Efficiency. In this good work he should be cordially aided by the Legislature, as he will be heartily sustained by the People.

Mr. McGarav's Lerter.—An apology is due to Mr. McGarry for the blunder of transferring his communication to the Wisconsin to our colhis communication to the Wisconsin to our cor-umus, without a change of its heading. The petty spite of the Wisconsin editor was grati-fied by placing before it a caption by no means appropriate, at the same time giving it the air of gonulineness. Mr. McGarry has no sins of mal-feasance in office to confess, and, by the means under notice, it was unmanly of the paper that accepted his article, to force him upon the confessional.—News of yesterday.

The communication referred to was first published in the Wisconsin, the editor thereof having fitted it with the "caption," "Ex-Commissloner McGARRY's Confession." The News cop-led it, "caption" and alt. The Sentinel also published it, minus the Wisconsin's "caption," which we thought nother just, nor fair.

The Indiana Convention Explained—Passage
Between Massage Fitou, Tooms, Douglas
And Hale.
The following is a most interesting portion of the proceedings in the Senate at Washington on Wednesday. We copy from the National Intelligencer. ligencer.

Mr. Fitch of Indiana, having asked and received the privilege of the floor for the purpose of making an explanation which he described as

making an explanation which no described as partly personal and partly political, proceeded to explain the history and purport of the resolutions intely adopted by the Democratic Convention of Indiana. These resolutions, he argued, were meant to be an indersement of the policy marked with reference to Kan they do not return to her treasury much about meant to be an indersement of the policy marked out by the Administration with reference to Kan sag-a policy which he, as an Indiana Senator, had determined to sustain, but which he would not do in opposition to the known and declared wishes of his political friends in that State. The and costly freights. To obtain a high rate of speed makes necessary a greatty increased strength in full parts of the voset, more frequent and costly repairs, and an enormous consumption of fuel. The Collins steamers have been running but wishes of his political friends in that State. The resolution adopted by that Convention in its adjourned session, and which appeared to be condematory of the President's Kansas polity, was so only because of an inaccuracy in the telegraphic dispatch. How that inaccuracy arose he would not pause to inquire. The resolution, after reallirating and defining the doctrine of the Kansas Mebraska act, proceeds to say, "and hereafter no Territory should be admitted into the Union as a State, without a fair expression of the will "of the people being first had upon the Goostituly, and in the course of its remarks upon this subject, says: "Old Juneau County holds out almost unparalelled inducements to farmers and incontained and farmers of limited means, who define to secure a cheap yet desirable home where by industry and reasonable economy, they are certain, in a very few years, to secure a timely provision for declining health and old approval of this principle of popular submission with reference to all future Territories, while ad with reference to an intuac Territories, while advecting none the less the acceptance of the Lecomp on Constitution without such preliminary ratification, which unfortunately had not been provided for in the Kansas-Nobraska act. Such

ratification, which unfortunately had not been provided for in the Kansas-Nobraska act. Such being the terms of the resolution, Mr. F. suid that a verage, has above for years. The great the it contained an approval of the President's policy, and not of that expressed by a distinguished Senator in opposition to that policy; and he cad an extract from a private letter written to him by a member of the Democratic Convention in the power or conducessary to produce speed, increases as the cube of the velocity. that it contained an approval of the President's policy, and not of that expressed by a distinguished Senator in opposition to that policy; and he read an extract from a private latter written to him by a member of the Democratic Convention in correlationaries of the large-grades.

road an extract from a private fetter when the interpolation of the language and purport of the resolution as he had explained it.

Mr. Toombs, of Georgia, thought the whole explanation of Mr. Fitch actively out of order. It was disagreeable to him to listen to such details respecting a party Convention, with whose proceedings the Sonate had no concern.

Mr. Douglas remarked that he should not have claimed the courtesy of the Senato in the matter if he had not been referred to by Mr. Fitch in connection with the resolution. The verbal inaccuracy cited had doubless arisen in its transmission through the telegraph offices, where such mistaines were of daily occurrence. That the resolution, however, in its corrected form, could not be made to sustain the construction put upon it by Mr. Fitch, was capable, he thought of an easy domoustration. An examination of put upon it by Mr. Fitch, was capable, he thought of an easy donoustration. An examination of selanguage would show how, impossible, it, was to reconcile such an interpretation, with the former clause, of, the resolution, in which the Democracy of Indiann declare "that they are in favor of the great doctrine of the Kansas Nebiasto blill, and by a practical application of that doctrine the people of a State, or a Territory are vasted with the right of ratifying or rejecting at the ballot box any constitution that may be

at the ballot box any constitution that may be framed for their government, and that liereafter no Tecritory shall be admitted into the Union? &c. Hence it would be seen that the Indiana Democrats distinctly and unequivocally announce Democrats distinctly and unequivocally announce that according to their understanding the people of Kansas, by virtue of the organic act, have "a vested right" to ratify or reject at the ballot box any constitution that may be framed for their government; and to suppose that they intended to except Kansas from the benefit and "practical application" of that doctrine was to suppose that they meant to repudiate, with respect to this Territory, the very act which had thus been andersad and expounded by them, as guaranteeing doctand and expounded by them, as guaranteeing

nembers of which had recently promitigated, on behalf of the party and with reference to the Kansas question, a resolution very similar in its terms, to that adopted by the Indiana Convontion. He deemed it unkind to scan too closely those resolves of the Northern Democracy, who it was to be remembered, were exceedingly hard

tweet resolves of the Northern Democracy, who it was to be remombered, were exceedingly hard pressed at home, insomuch that they found it difficult to live in any place, less secure than a Custom House or a Fost Office. Resolutions, pussed by continence in such a continence of pussed by gentlemen in such a critical situation deserved, he thought, to be treated very tender bor, and spat it from his mouth. After this he was entirely unconscious. His buggy was driven up to his door in Frankford, and the family going out, found him entirely unconscious. Upon oxamination he found that he had been robbed of \$450. Since that time he has been very unwell, and hus not recovered the use of his limbs. The robber has not been done to the finding must be done to relieve the name forms. An election was close at hand in the former State, and it was apparent that semething must be done to relieve the name forms. it was apparent that something must be done to relieve the party from the pressure of the edious Lacompton Constitution on the one hand, and the Administration's approval of that instrument on the other. The State Committee, therefore, on the other. The State Committee, increase, in a sories of resolutions, had reindorsed the Kansas-Nebruska act, re-affirming the Cincinnasti Platform, complimenting Mr. Buchanan, and repudiated the Lecompton Constitution; in other words, the New Hausbire; Democratic State Country Mr. Ruchanan, but do not the contraction of the Country Mr. Ruchanan, but do not the contraction of the contrac or words, the New Haushire Democratic State. Committee approve Mr. Buchanan, but do not approve his measures. This, it seemed, was about the position they occupied in the premises, and it trappeared even less comfortable than that of the Indiana Democracy, it was probably because the former were reduced to even great-

because the former were reduced to even greater extremitles than the latter.

The facctious remarks of the Senator provoked much morriment on all sides of the chamber, and, in taking his sent, he thanked the Senate for its courtesy in permitting him to plead in behalf of the Democracy of New Hampshire, as Mr. Fitch and Mr. Douglas had done in behalf of the Democracy in Indians.

It adds that any attempt to in-terrupt. Russia in the fulfillment of that mission would end in the destruction not of Russia, but of the power making the attempt, and that "" Rus" sia will no more be vanished by England on this ground than she was in the last European war."
